

Strategic Plan of NHEI's QAU

Mission

The Quality Assurance Unit at New Heliopolis Institute of Engineering is leading the process of setting standards for quality assurance and continuous development in educational and research programs that meet the needs of the community and the labor market locally, regionally and internationally. It also provides the integrated technical support to qualify NHEI to be accredited at the national and international levels.

Vision

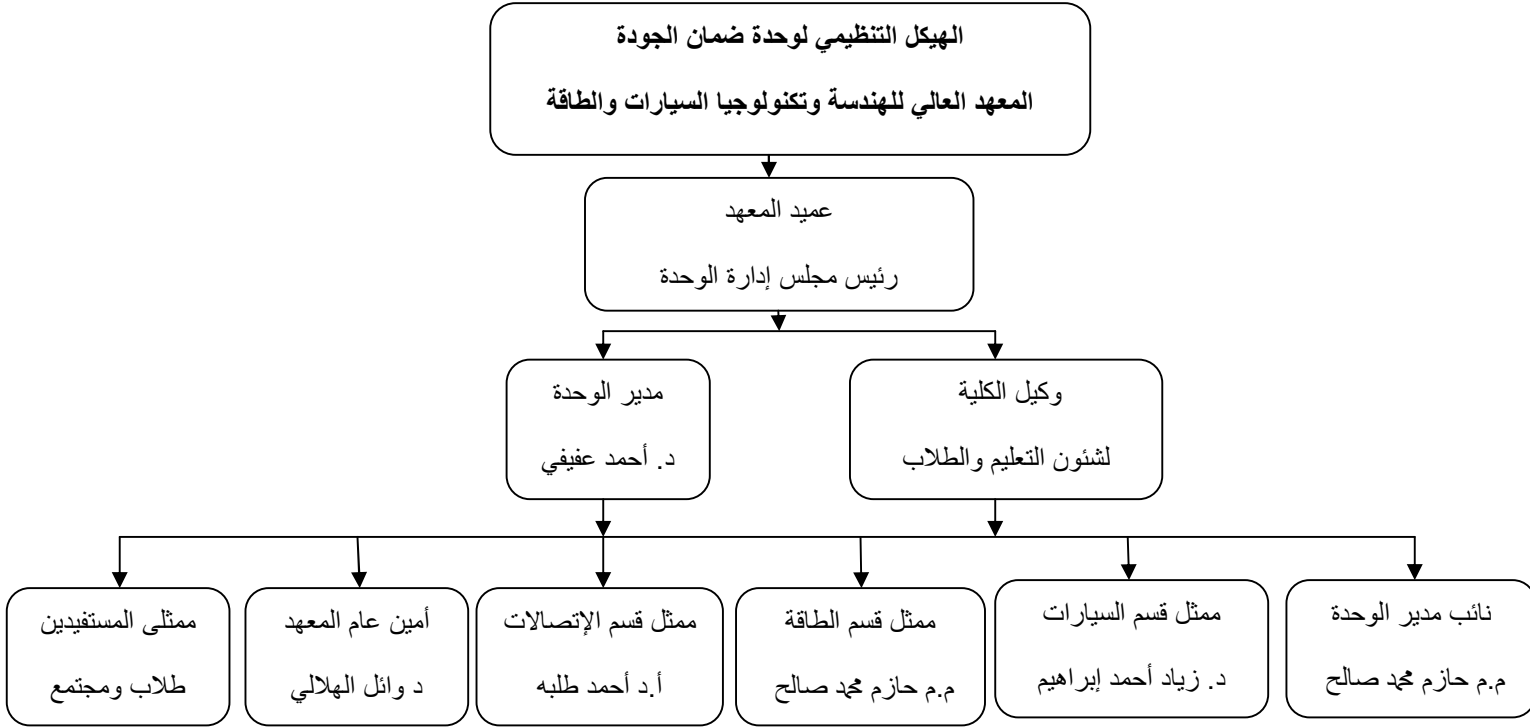

Implementing integrated systems to ensure the quality of education, scientific research and community service and enhance the capabilities of NHEI for continuous improvement, which enable it to be one of the most important Higher Education Institutions locally, regionally and internationally.

Strategic Objectives of the Quality Assurance Unit – NHEI

1. Disseminate the culture of quality to achieve the vision and mission of the Institute and its objectives.
2. Enhancing the capacity building to conduct self-evaluation according to the standards of the National Authority for Quality Assurance of Education and Accreditation.
3. Follow-up mechanisms for the development of programs and bylaws of NHEI .
4. Expanding the international accreditation of the Institute and academic programs and enhancing its international reputation.
5. Raising the level of community satisfaction with the outputs of NHEI's education system as graduates, research and professional and community services in accordance with national, regional and international standards.
6. Achieving effective communication between the Unit and units in NHEI.
7. Developing the executive rules and regulations of the NHEI, thus enhancing flexibility and transparency.
8. Strengthen capabilities at all levels/ groups in the field of quality assurance systems and mechanisms.
9. Cooperation with quality assurance agencies and organizations at the national, regional and international levels.
10. Diagnosis of obstacles facing the development of performance at all levels and conduct analytical studies and propose proper solutions and plans for improvement in various areas.
